PROFESSIONAL EXPERIENCE

Noventiq

Bangalore

Cloud Engineer Trainee

Feb 2023 – Apr 202024

- Deployed and configured scalable and reliable cloud infrastructure solutions using Microsoft 365, GCP and Workspace services.
- Enabled migration tools with connectivity between source and destination tenant.
- Established, implemented, and monitored cloud policies for the allocation of resources.

TECHNICAL SKILLS

- **Languages :** Java, Javascript, HTML, CSS.
- **DataBase :** Oracle, MySQL.
- **Cloud :** Google Workspace Admin, Microsoft 365, Compute Engine, Shell Scripting.
- **TOOLS/IDE :** MySQL Workbench, Eclipse, BitTitan, VS Code.
- **Framework/API :** J2EE, JDBC, Servlets, Hibernate, JSP.

PROJECTS

Shopping Cart Application ([Link](#))

Java, Hibernate ORM, MySQL

- Developed a robust application using Java and Hibernate facilitating seamless interactions between users, products, and cart functionalities. The application leverages Hibernate ORM to manage database operations efficiently.
- **Entity Management:** Implemented three JavaBean classes with comprehensive getter and setter methods. Utilized Hibernate annotations (Entity, Id, OneToOne, ManyToMany) for effective database mapping and relationship establishment.
- **Data Access Layer:** Developed the DAO class, which encapsulates all database access methods. This class is responsible for creating a Hibernate SessionFactory, opening sessions, and executing transactions to perform various operations on the database.

Instagram User Analytics ([Link](#))

Data Analyst | SQL, MySQL Workbench

- Designed and executed SQL queries to analyze Instagram user interactions and engagement for marketing and investor insights.
- Conducted user segmentation to identify the five oldest users, inactive users, and potential bots based on platform activity. And Extracted data on the most popular hashtags and optimal days for ad campaigns to aid in marketing strategy development.

EDUCATION

Visvesvaraya Technological University, Karnataka

(2019-2023)

Bachelor of Engineering in Computer Science Engineering

CGPA: 7.93/10

S B High School Ara, Bihar

(2018)

Sr. Secondary Education

Percentage: 71%

Kendriya Vidyalaya No.2 Patna, Bihar

(2016)

Secondary Education

CGPA: 7.2/10

TECHNICAL SUMMARY

- Developed 5+ Java applications using OOP principles (encapsulation, inheritance, polymorphism, abstraction) with 80%+ code reusability
- Optimized data structures using Collection Framework components (ArrayList, HashMap) achieving 40% faster lookup times.
- Designed complex queries using Window Functions (RANK, DENSE_RANK) for financial reporting systems.
